Walter Benson 571-272-2227
U.S. Patent and Trademark Office
PTOL-37 (Rev. 1-04)

Application/Control Number: 10/625,740

Art Unit: 2858

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- 2. Authorization for this examiner's amendment was given in a telephone interview with Rustan Hill Reg. No. 37,351 on 9/30/04.
- 3. The application has been amended as follows:

In Applicant' Specification:

a. In claim 13, line 12, inserted –which applies a prescribed processing function – after "circuit". (page 4)

Allowable Subject Matter

4. Claims 1-22 are allowed.

The prior art of record fails to teach in combination as claimed a system of monitoring a high-frequency that operates at a low temperature to handle an electrical signal having high-frequency spectral components where an input coupler having a space where a given high-frequency probing signal can propagate to combine the propagating high-frequency probing signal and electrical input signal into a combined signal. The combined signal

Application/Control Number: 10/625,740 Page 3

Art Unit: 2858

enters the high-frequency circuit, which applies a prescribed processing function. An

output coupler at an output end of the high-frequency circuit receives the combined

signal. The output coupler has a space where a high-frequency probing signal component

in the combined signal can propagate. The high-frequency probing signal component

that has propagated through the space is extracted in the output coupler.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter Benson whose telephone number is (571) 272-2227. The

examiner can normally be reached on Mon to Fri 6:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, N. Le can be reached on (571) 272-2233. The fax phone number for the organization

where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
